

Board Meeting 11/05/15

Tents for Posse hut and south county hut. Put up to vote and three tents (two for Bishop, one for south county), vote passed.

SAT phone: Laura has looked into SAT phone plans but wasn't able to get a pro deal and looked into DeLorme inReach devices as a possible alternative, or at least for places where we don't have radio reception. We will try and use the sheriff's homeland security funding for 4 deLorme's--3 in Bishop and 1 in south county.

Training this month: ideas: 4 wheel drive training up Silver Cyn with beacon search in the snow, avi training, technical training, winter SAR night at the hut.

Winter recert: med plan taken by Symons, Mammoth is secured as a site, we can park at mammoth, and scenarios will be up at minaret summit.

We will combine components on the Jeeps to create one good jeep.

The team would like to get Nate and Wendy a gift, and we will try and all chip in money to get them a nice dinner at Sage, and perhaps a night at the double eagle.
