

Board Meeting Minutes 4/2/2015

New Member Packet: we need more copies made: Julia will get on it.

What needs updating in the packet? Probably don't need the helicopter page. Need to update the radio frequencies, update team photo. Maybe we redo the membership packet which has lots of useless forms that are turned into Nate that we never see. Instead we could have forms with emergency contact info and skills survey in the new member packet which gets turned into the board. Julia will, take out helicopter page, add in skills survey, update contacts

Snow Recert 2016: Once we have a location and a time, everything is pretty much cut and paste from past years. During the general meeting, let's form a committee to deal with the recert prep since numerous people know people at Mammoth who could help us with logistics. We have decided we don't have to actually need to choose a place so long as we keep Art occupied by telling him we have a t-shirt design and have filled out some forms.

Trainings: Mike and Max are looking into a small group Rigging For Rescue class which would be more applicable for our team for actual rescues.

Jacket update: Arc'teryx jackets: 7 men's Zeta and 7 women's Theta AR--roughly \$4000. We will put this up to a team vote. Matt will check in with Arc'teryx about when they might get orange in stock in other jackets.

Gators are cool.
