

General Meeting 10.2.14
Recorded by J. Vargo

Bullfrog Meadow rescue - helicopter went in at night and got victim out. which helicopter and how??

Hoornbeck went on a mission solo. On Whitney. He found them and Pt was ok and they hiked out slowly.

Summer is over. No real missions last month.

We got together and priced stuff for choo choo. We had a training for personal on rope skills, but there wasn't enough cord. Still played around in the garage.

Lots of new trainings coming up for the recert in March. RFR people will lead trainings. Schedule is up on the board and will go out via email.

This month - Thursday 16th Pullies and MA training.
Saturday 18th - SAR BBQ at S.Co. hut for dedication to Hardcastle. 11am.
Sunday 19th - Horizontal training
Saturday 25th - Horizontal training part 2

This Saturday is the ChooChoo swap meet.

MRA - CA state assembly is considering a bill that would charge people for rescues that result from gross negligence or breaking the law. Discussion.

Nate: Gear order. Buy it and have them bill the county. Nate will call CMC tomorrow.

There are 2 radios at SoCo hut right now. One came from here. Supposedly new radios are still on the way.

There are keys for the SoCo Jeep in the SoCo hut incl one for the gate.

Max should take a look at SoCo hut and see what's there and what it needs. Nate will grab office supplies to stock it. Things to make it more comfortable.

Helicopter for the bullfrog meadow mission was a huey from Kern that could fly at night. Super high ceiling. Can they do mountain terrain? Can we use them? Who does that go through?

We have stickers and hats that have support on them for selling at ChooChoo.

Rescue members awards this year. What should they be and how much do we spend.

Map inventory is really low. Someone should go through it and buy new ones. We're giving that to Ed. But how many minimum for each quad?

Chris has things to donate to ChooChoo but it needs to be priced.

New member: Emily. Former rafting guide.
